[Rodríguez-Quiroz G., W. Valenzuela-Quiñonez, H. González-Ocampo and A. Ortega-Rubio. 2018. Can the vaquita be saved from extinction? *Human-Wildlife Interactions*, 12 \(2\): 284-290.](#)

Version 2.2 of the [Global Wind Atlas](#). In version 2.1 (released in July) upgraded the resolution from 1km to 250m, and with this new release made some significant improvements to the user interface that will make it much easier to use. One of the key new features is the ability to **create poster maps on the fly**, which will be further expanded in future releases

Dear Marine colleagues,

Applications soon close (September 30) for the vacancy for the position of Director, IUCN Global Marine & Polar Programme, based at IUCN Headquarters in Switzerland. Please click on this link for further details: <https://hrms.iucn.org/iresy/index.cfm?event=vac.show&vacId=2875&lang=en>

Ocean energy conference: the impact of EU R&D funding

A Trinomics led consortium, on behalf of The European Commission, will be delivering a [conference in Brussels on 16 October 2018](#) on ocean energy research, development and technologies.

The [free to attend conference](#) will provide insights into the impacts of R&D funded through the EU Framework Programmes for Research and Innovation; including providing access to the Ocean Energy R&D Impact Report and an opportunity to influence the recommendations to increase future R&D impacts.

During the workshop key industry experts will share their insights on the future of ocean technologies and there will be opportunities for you to discuss and understand how to increase the impacts of your own research projects.
