[The 1st Global Sustainable Blue Economy Conference \(SBEC\).](#)

26-28 November, Nairobi, Kenya

The Conference is an opportunity for governments, the private sector, academia and civil society to engage in high level strategic dialogue, networking and learning about the blue economy and the enormous potential of our seas, rivers, lakes and other water resources for transformative and sustainable development of countries and Island States. The Conference is co-hosted by the Governments of Kenya, Canada, and Japan with UNDP providing coordination support.

[2nd Symposium on Climate Change in the Pacific Region \(Pacific](#)

The International Climate Change Information Programme (ICCIRP) is a world leader in respect of information, education and training on matters related to climate change. ICCIRP plays a key role in the organization of specialist events on matters related to climate change, attended by thousands of climate researchers from round the world each year.
